FSA - Freestanding Appliqué

FSL - Freestanding Lace

General Freestanding Applique Guidelines

Supplies:

Embroidery Thread:

- Use the same embroidery thread in the bobbin as the needle.

Needles:

- Use an Organ 80/12 Titanium needle for extended needle life.

Stabilizer:

- Use water-soluble stabilizer or film water-soluble stabilizer.

Handy Hints

Drying:

- Freestanding pieces look best when left to dry with right side down. This will minimize the tendency for a piece to curl. Be sure to flatten the piece out entirely and allow ample time to dry.

General Applique Instructions

1. Hoop two layers of OESD AquaMesh Stabilizer.
2. Attach the hoop to the machine and select the design of your choice.
3. Stitch the Placement Stitch. **Photo 1**
4. Place a piece of applique fabric over the Placement Stitch so that it is completely covered.
5. Stitch the Cut Line & Tackdown stitch.
6. Carefully cut away the excess applique fabric. **Photo 2**
7. Stitch the remainder of the design and repeat for any remaining pieces. **Photo 3**
8. Remove the hoop from the machine and the design from the hoop.
9. Trim excess stabilizer from the design.
10. Rinse away remaining stabilizer and allow it to dry face down to prevent curling.
