General Instructions

The applique instructions, included in the collection, are general instructions. For demonstration purposes, a sample design that best demonstrates the technique is shown.

Fabric and thread requirements will vary by design, but the general technique is the same.

Note: Some thread colors in instructions have been changed or digitally enhanced for better visibility.

Step 1

- Adhere one layer of StabilStick CutAway to the wrong side of all applique vinyl and fabric, to provide stiffness to the finished project.
- Cut the prepared applique vinyl $\frac{1}{4}$ " - $\frac{1}{2}$ " larger than the templates that are included at the end of the instructions.

Step 2

- Print the mirrored version of the templates (at 100% scale or 1:1 ratio) onto the paper side of Applique Fuse and Fix.
- Cut approximately $\frac{1}{4}$ " - $\frac{1}{2}$ " outside the printed applique templates.

EMBROIDERY - PREP

□ Step 3

- For designs: 51334-02, 51334-04, 51334-06, 51334-08, and 51334-10, cut the Fiber Form 1/4"-1/2" larger than the applique templates.
- Fuse the trimmed templates to the back of the Fiber Form with the paper side of the printed template up. Hold the iron on the template for 10-15 seconds for a secure fuse.

□ Step 4

- Trim the Fiber Form on the edge of the black outline.
- Set aside.

EMBROIDERY - SINGLE SIDED FREESTANDING APPLIQUE

Designs: 51334-01, 51334-03, 51334-05, 51334-07, and 51334-09

□ Step 5

- Hoop one layer of AquaMesh and one layer of BadgeMaster for all designs.

□ Step 6

- Load selected design into the machine.
- Example design is 51334-03.
- Thread the machine per the thread chart.
- Place the hoop on the machine.
- Stitch Machine Step 1, White Sparkle Vinyl Placement Stitch.

□ Step 7

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Completely cover the placement stitch with the prepared vinyl.
- Tape in place to secure.

Step 9

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Trim the excess vinyl as close to the cut line stitching as possible.
- **Note:** If the outermost stitches (cut line) are cut, the inner stitches (tackdown) will hold the applique in place.
- Tip: If the stabilizer is cut or a hole is created while trimming the fabric, use OESD Expert Embroidery Tape WashAway as a patch.

Step 10

- Return the hoop to the machine and stitch the remaining steps per the thread chart.
- Match the bobbin thread to the upper thread.

□ Step 12

- Rinse in warm running water until all traces of the wash away stabilizers are removed. Completely and thoroughly rinsing will prevent this design from sticking to its corresponding design.
- Place right side down on a non-stick surface to dry. Using parchment paper or a cooling rack work well to prevent curling. Dry completely.
- Once dry, press right side down on a Perfect Embroidery Press Cloth.
- **Note:** Designs: 51334-01, 51334-03, 51334-05, 51334-07, and 51334-09 must be rinsed, dried, and pressed prior to attaching to its corresponding design.
