- Cord/Ribbon
Squid - Blue cord (3 even sections)
Squid - Blue Ribbon (3 even sections)
- Mouse- Brown cord

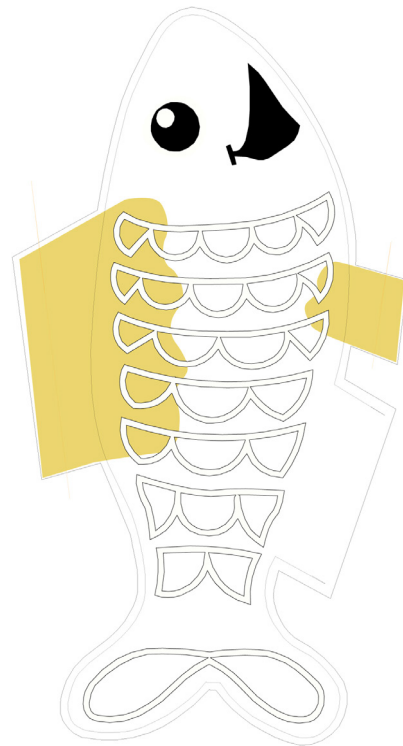

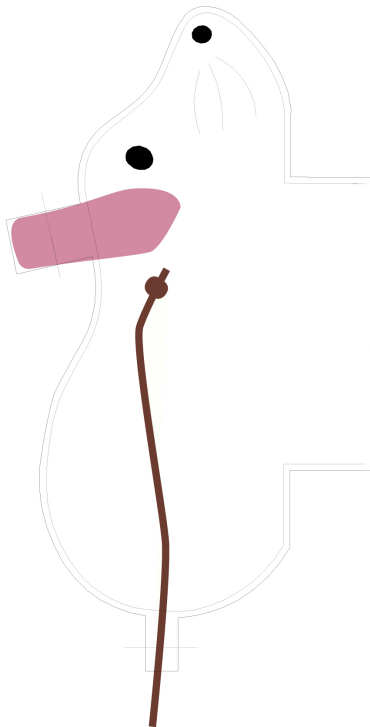

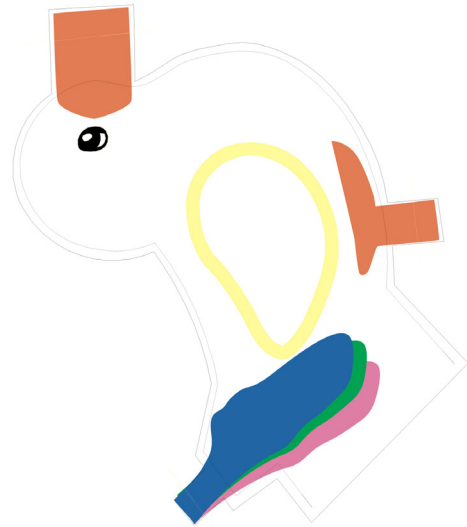

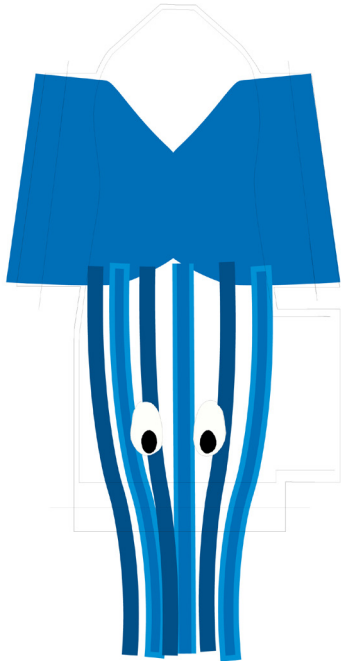

Notion & Tools

- OESD Expert Embroidery Tape TearAway
- OESD Expert Point and Press Tool
- OESD Perfect Embroidery Press Cloth
- OESD Alligator Clamps
- OESD Grippy Grid
- OESD Perfect Scoring Tool
- Embroidery Needle Sharp 75/11
- Fiberfill stuffing

Isacord Thread Colors

- Per thread chart

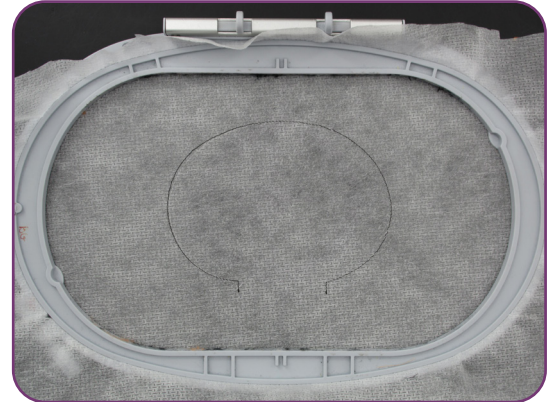

PIECING DIAGRAMS

INSTRUCTIONS

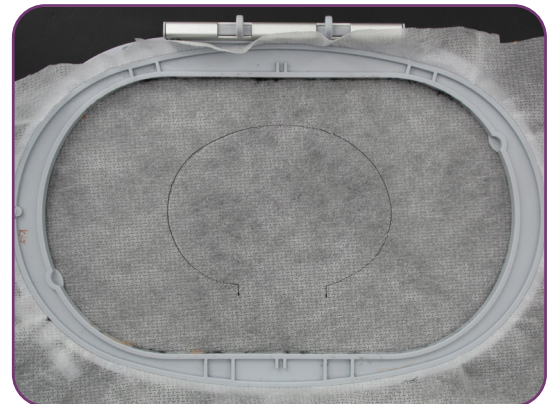

Notes

- The stitch & turn instructions, included in the collection, are general instructions. For demonstration purposes, a sample design that best demonstrates the technique is shown. Example Collection is 51206 - Halloween Minkee Misfits
- Fabric and thread requirements will vary by design, but the general technique is the same. All designs are stitched with matching thread, top and bobbin. Note: Some thread colors in instructions have been changed or digitally enhanced for better visibility.

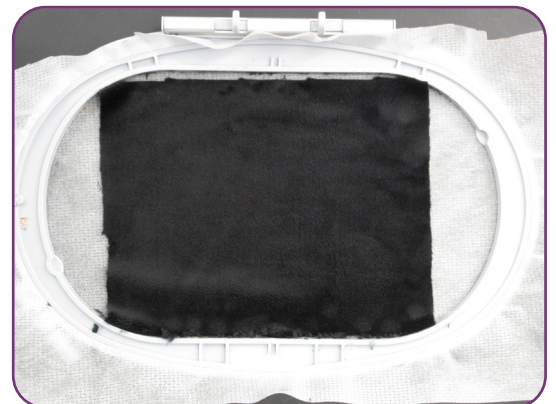

Step 1

- **Fabric Requirements:**
(2) Pieces 7.5" x 6" of Minkee fabric in desired color.
(8 pieces of rick rack cut to 5" each for legs).
- Hoop one layer of OESD PolyMesh CutAway stabilizer.
- Stitch the first color called Placement Stitch. Use a thread color that blends with your fabric choice.

Step 2

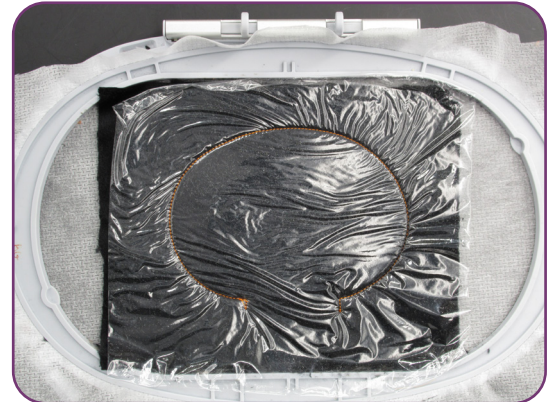

- Cut a 7.5"x 6" piece of Minkee for the first placement stitch being sure that the Placement Stitch is covered by the fabric.

INSTRUCTIONS

Step 3

- Lay the StitchH2O topper over the fabric and tape in place with Expert Embroidery Tape TearAway.
- Raise the presser foot if possible to accommodate the added loft of the fabric. If not, slow the machine speed.
- Stitch the second color, the Tackdown Stitch.

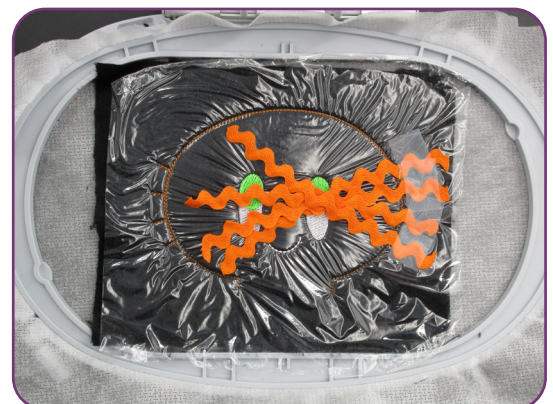

Step 4

- Sew the rest of the colors on the design and stop after you sew Rick Rack tackdown stitch.

Step 5

- Cut 8 pieces of Rick Rack 5" and Place direction of the placement stitches with the largest part of the Rick Rack on the inside and the smallest section on the outside. Using OESD Expert Embroidery TearAway Tape. Tape the small part of the Rick Rack on the outside of the design making sure the longer piece doesn't go outside the Tackdown Stitch.
- Do the same process for that side and the other side.

INSTRUCTIONS

Step 6

- Sew the next color Rick Rack Tackdown sew this slowly and make sure the Rick Rack don't get hung up on your sewing foot. It should sew over the tape you put on the Rick Rack.

Step 7

- Place the second piece of fabric right side down directly over the first piece.

Step 8

- Stitch the final color, again using the first thread color, called Seam - Match Top Fabric. (For visual purposes we used a bright color so you could see the seam)

INSTRUCTIONS

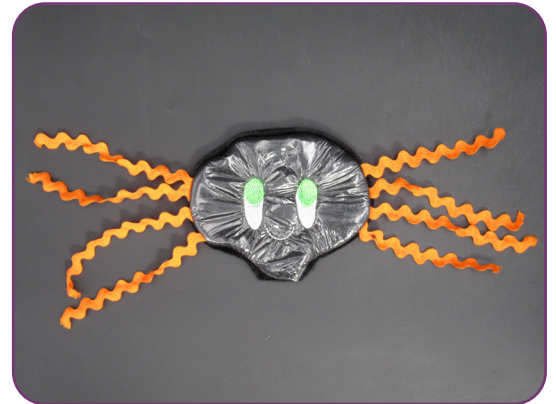

Step 9

- Remove the hoop from the machine and the fabric from the hoop.
- Using scissors, carefully cut out the stitch 'n' turn project close to the stitching line and over the small pieces of Rick Rack. Cut around the stitches at the opening to create a tab.

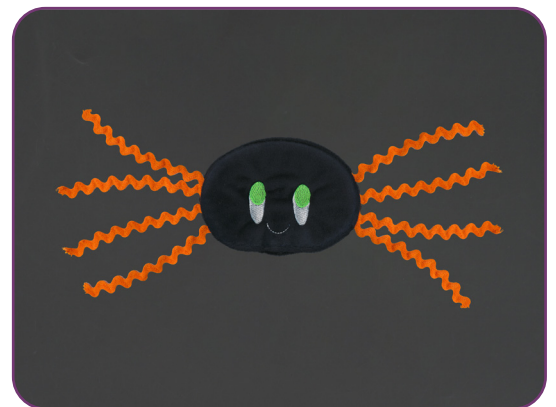

Step 10

- Clip corners as needed.
- Turn the project right side out. Use a point turner or chopstick to turn out corners and curves.

Step 11

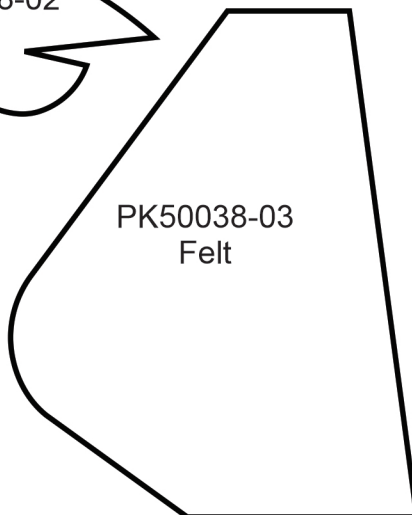

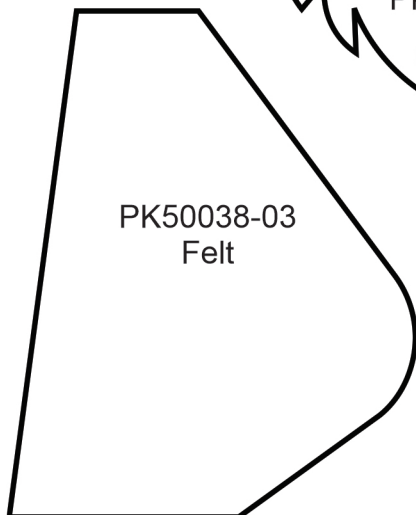

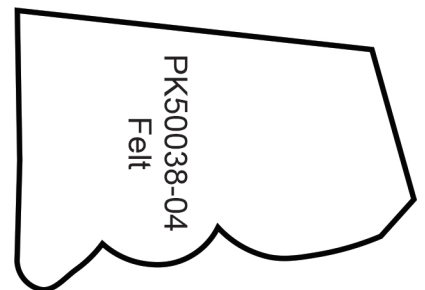

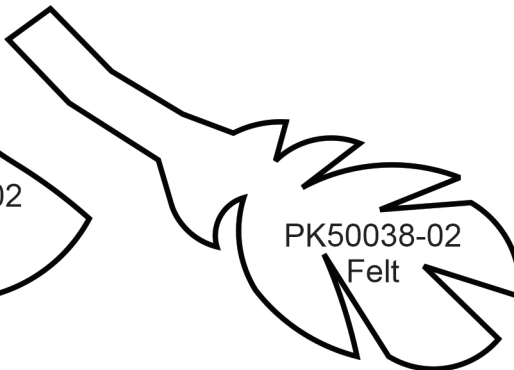

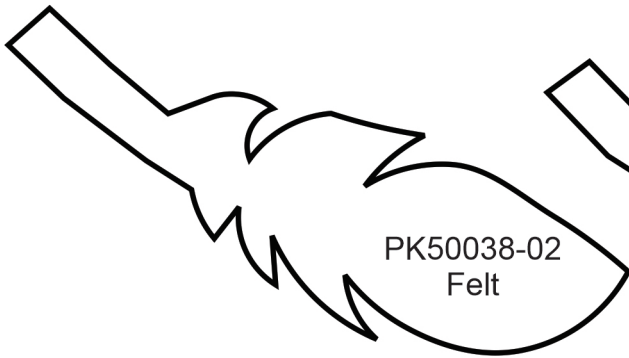

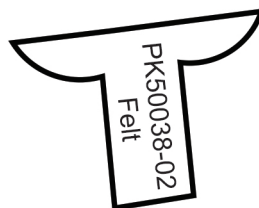

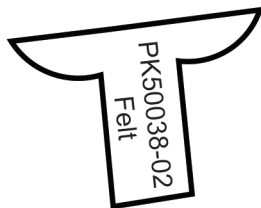

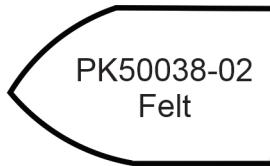

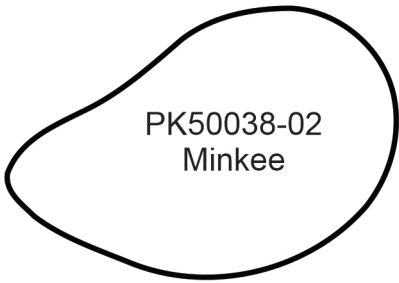

- Trim any jump stitches and then peel off the StitchH2O topping.
- Stuff with polyester fiberfill.
- **Note:** For a smooth project, add small pieces of fiberfill until desired fullness is reached. Use Expert Point and Press tool to move fiberfill into corners.
- Fold tabs in and slip stitch the slit closed with a hand needle, or use a narrow machine zigzag stitch.

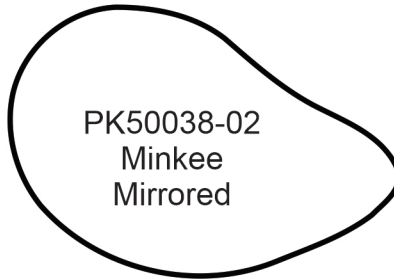

APPLIQUE PATTERNS

Print at 100%. No scaling. This box measures 1" x 1". Use the box as an accuracy guide when printing templates.

MIRRORED PATTERNS

Print at 100%. No scaling. This box measures 1" x 1". Use the box as an accuracy guide when printing templates.
